

MULTIPANEL®

Choose a modern alternative to tiles

Multipanel launches the first tile-effect wall panel to be manufactured in the UK with its new Tile Collection

Multipanel, the UK's leading [bathroom wall panel](#) brand, has launched its new [Tile Collection](#), making it the first and only manufacturer of tile-effect wall panels to be both Made in Britain and Forest Stewardship Council® (FSC® C128180) certified.

Bathroom panels provide a 100% waterproof surface, they don't require grout, they are quicker to install, and they last longer—all without compromising on style. They are a modern and sustainable alternative to traditional tiles: using bathroom panels instead of tiles saves on average 21 installation hours per bathroom and positively contributes to accelerating home completion timescales, as well as reducing snagging issues

Multipanel's new Tile Collection of 9 decors provides the aesthetic benefits of a stylish tile, but with the simplicity and ease of high-performance bathroom panels.

Using the very latest in manufacturing technology, a 2.5mm pale grey grout line is etched into the decors, creating a tile effect with laser precision. Panels in the Tile Collection feature a 580mm x400mm size tile, designed to deliver maximum aesthetic impact across any bathroom size.

Sarah Law, Managing Director at Grant Westfield, the makers of Multipanel, says: "We are delighted to be diversifying our offering with our new Tile Collection. This range of bathroom panels pairs the visual aesthetics of traditional tiles with the outstanding performance of Multipanel panels.

"To be the first manufacturer of tile-effect panels in the UK, and, for the Tile Collection to be the first of its kind to be FSC® and Made in Britain certified is something we are very proud of. It is important to us to be able to continue to innovate, and to bring new products to the market that are state of the art in terms of performance, style and sustainability."

John Mortimer, Multipanel's Sales Director and curator of the new range commented:

"The Tile Collection comes in three families, comprising of Marble, Mineral and Colour, with nine new styles in total. The collection is designed to complement a range of bathroom fittings and fixtures, from contemporary black, to elegant chrome and stylish satin.

Our bathroom panels are designed to be simple to install, being both waterproof and featuring an almost seamless Hydrolock joint. The grout line which has been precision etched, combined with the tile size makes this collection the perfect choice for any bathroom.”

Multipanel is the UK’s leading manufacturer of bathroom wall panels, offering a sustainable and modern alternative to traditional bathroom tiling. Multipanel believes that sustainability should complement performance, in turn creating an easy-to-install, high quality, grout-free product that lasts for years.

Over 8,000 Multipanel wall panels are manufactured each week at the company’s factory in Edinburgh, which are distributed throughout the UK and Northern Europe through merchants, bathroom showrooms and leading online retailers.

Multipanel bathroom wall panels are available in a range of surface designs, including marble, granite and wood.

About Multipanel

Manufactured in Edinburgh by Grant Westfield, Multipanel is the UK’s best-selling bathroom wall panel, and a sustainable and modern alternative to bathroom tiling:

- Established in 1881 Grant Westfield (FSC® 128180) has manufactured high-quality furniture products for over 140 years. For the last 5 years, Grant Westfield has been solely focused on the design and manufacture of Multipanel, the UK’s leading brand of bathroom wall panels.
- Grant Westfield manufactures over 8,000 panels a week at its factory in Edinburgh for distribution throughout the UK and Northern Europe via merchants, bathroom showrooms, and leading online e-tailers.²
- The fast, grout-free installation of Multipanel wall panels makes them a modern alternative to tiles and a favourite with homeowners, bathroom installers, and specifiers in the housing sector.
- Available in a range of surface designs, from marble to wood and granite, Multipanel is the only wall panel on the market that is Made In Britain (officially certified), FSC®-certified, and independently rated 4.8/5 on Feefo by homeowners.
